

## 10 years me Collectors Room Berlin

The Olbricht Foundation was founded by Claudia and Thomas Olbricht with the aim of promoting contemporary art, artists and curators and to awaken public interest in art, particularly among children and teenagers.

With this in mind, the foundation offers a comprehensive and varied programme on 1.300 square meters in the me Collectors Room Berlin, which opened in 2010: a Wunderkammer (chamber of curiosities), changing exhibitions from parts of the Olbricht Collection and other international private art collections, events that deal with the themes of the respective exhibitions, and a comprehensive educational programme for children and teenagers. Since 2016, the Wunderkammer Ship has been on the waterways of Brandenburg and Berlin as a further project of cultural education for children.

### Review in figures

41 exhibitions since 2010, thereof:
